

ON-SCHEDULE COMPLETION OF COMPLEX FLOORING INSTALLATION PROVES TO BE ELEMENTARY

THE PROJECT

The 100,000 sq. ft. installation at the Henry Street Elementary School, Passaic, NJ.

THE CHALLENGE

Install a highly durable floor that creates a welcoming environment for children to learn in.

- Large installation with multiple color tiles and patterns in classrooms, hallways, lunchroom and media center.
- Completed the installation by September in time for new school year.

THE PROCESS

- Tight three-month installation period.
- Coordinate schedule with other trades to insure quality of installation.

THE FLOORING SELECTION:

- ARMSTRONG® Vinyl Composition Tile (VCT) for it's wide variety of colors, easy maintenance and through-pattern construction.

THE INSTALLATION:

- Coordinate work schedule with other trades to ensure on-time installation.
- Complete all work in keeping with the SDA qualifications.

THE RESULTS:

- The high-quality, high performing Armstrong Vinyl Composition Tile (VCT) creates a bright and cheery environment.
- The entire project was completed in time for the new school's ribbon-cutting ceremony.
