

## THE GILLESPIE GROUP AND UZIN® FLOORING TEAM UP FOR GYM RENOVATION

### THE PROJECT

- Passaic High School, Passaic Public School System, Passaic, NJ

### THE CHALLENGE

Remove and replace a moisture-soaked, buckling gymnasium base flooring during winter holiday season

Install a flooring solution that:

- Withstands heavy foot traffic
- Reliable and durable
- Self-leveling capabilities
- Designed to handle moisture conditions

### THE PROCESS

- Complete the removal of existing floor
- Shot blasting
- Demolition of bleachers
- Apply self-leveling base flooring

### THE FLOORING SELECTION

- UZIN® Flooring – a 2mm-to-3mm base flooring
- UZIN® is self-leveling and spreads easily
- UZIN® is designed for moisture control conditions

### THE INSTALLATION

- Safe removal of existing epoxy flooring system and prefilling of cracks
- Pre-selected UZIN® flooring materials
- Installation completed on schedule

### THE RESULTS

- Sports activities, school spirit events and community gatherings were now able to use their gym
- Passaic High School embraced school spirit – bolstered by the new gymnasium floor
